

**COMIX AND GRAPHIC NOVELS****BEGINNER**

## Create your own comic

In groups of two, create a comic in Arabic. You should discuss either an issue in the Arab world like civil wars, resources, censorship, gender stereotypes or how as a non-Arab you see the arab world, or biases against or for the Arab World.

- *The comic should be at least three strips (6-9 panels).*
- *Use what Arabic you know to express what you want to say. Remember that in comix the visual element is equally important if not more important than the writing.*
- *Be aware of the visual aesthetics used in some of the comix we have seen. We do not expect you to produce professional looking drawings, but we would like to see you making an effort in trying to make your idea visually appealing and coherent.*
